2020 Software Subscription Policy

According to the Management decision, apart from the North American and European market, for other regions for the Pro line Diagnostic tools (Passenger Car Configuration), the free software Subscription time will be changed from three years to two years from 1st, May, 2020. The North American will only have one-year free software Subscription, and the European market can have two years free software Subscription at the most.

So, it means all the Pro line Diagnostic tools registered from 0 o'clock on 1st, May, 2020(Beijing Time) will automatically have two years free software Subscription for other regions (Apart from the North American and European market). Please inform your local distributors.
